## **DETAILED ACTION**

### ***Claim Objections***

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). Earlier presented claims 22-24 and 26 were restricted and were canceled by the applicants as indicated in paper #9. Therefore the number next following the highest numbered claims previously presented is 27.

Accordingly, misnumbered claim 26 has been renumbered as 27.

### ***Claim Rejections - 35 USC § 103***

2. Claims 6-13, 16-18, 21 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Mastering Microsoft Office 97 (Office 97). Rationales for the rejection continue to be as set forth in the past Office action.

3. Amended claims 1-5, 14-15, 19-20 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Mastering Microsoft Office 97 (Office 97). Rationales for the rejection set forth in the last Office action are incorporated into the following remarks.

Art Unit: 2773

- As for amended claims 1, 13-15: The My-Document is installed under Office 97 and is applications independent. Since the My-Document is application independent file operation dialog box under My-Document is also applications independent.

- As for amendment claim 19: The Document menu option links to the My-Document folder which contains 15 most recently used files and/or folders (Figs 6.2 and 10.3; page 238: see "NOTE").

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claim 27 is rejected under 35 U.S.C. 102(a) as being anticipated by the Microsoft Office 97.

- As for claim 27: In a computer system having an operating system, Microsoft Office 97 discloses a method comprising providing default document folder call My-Document. My Document folder is for use by two or more application and is defined within the operating system (page 6), independent from the applications. A My-Document icon is displayed during file operation related to the applications (page 238).

***Response to Arguments***

6. Applicant's arguments filed 8/22/00 have been fully considered but they are not persuasive.

As for claim 1: In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, displaying the My-Document icon on a primary screen would provide easy access to the icon. In response to applicant's argument that there is no need to display the My Document icon on the primary screen since the My-Computer icon already there, the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985).

As for claims 6, 15,16: The My-Document default folder is application independent, and is defined within the computer operating system.

As for claim 13,14: My-Document is a default folder for all Word, Excel, Powerpoint, Outlook, and also capable for Access, the folder is installed with Office 97.

Art Unit: 2773

As for claims 17,18: The My-Document is installed under Office 97 and is applications independent. Since the My-Document is application independent file operation dialog box under My-Document is also applications independent.

As for claims 12,25: A Save As dialog box is provided for re-directing the file to a specified folder or file type. The Save As dialog will not be displayed if a file have already named and saved (page 239), which implies that the determining steps are implicitly included when the file is saved.

### *Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
